## 2015 Q2 Highlights

- Small organic growth in line with soft market in general.
- Decision to invest 110 MSEK in additional capacity for tissue.
- Organic growth mainly derived from Meal Service and New Markets.
- Seasonal increase in net debt, but decrease with 248 MSEK compared to Q2 2014.
- Hygiene as from Q2 reported as discontinued operations.
- Net sales SEK 1002 m (922)
- Operating income SEK 104 m (93)
- Operating margin 10.3\% (10.1\%)

## Operating income (LTM) on highest level since IPO

Includes discontinued operations

## Market Outlook

- HoReCa market long-term growing in line or slightly above GDP.
- Higher growth in take-away, catering and fast food restaurants.
- Zero growth in volume from recent German HoReCa, mixed signals in Europe. Sweden strong, but weak in parts of West and South Europe.
- Improved estimation on real GDP, but Greek crisis could hamper expectations.
- Uplift of German GDP prediction for 2015 indicating 1.5-2.0\% improvement vs. 2014.
- Greek crisis might have negative influence on consumer confidence which is still on healthy levels.
- High volatility, partly due to exchange rates, on raw materials. Continuous strong USD puts pressure on prices in EUR.
- Pulp remains on high levels in EUR correlated to the strong USD.
- Sharp competitive pressure in several markets, also in premium segment.

## Table Top

Slightly lower growth trend noticeable in Central Europe.

## SALES \& OPERATING MARGIN ${ }^{1)}$

1) Operating margin adjusted for fair value allocations and amortization of intangible assets identified in connection with business acquisitions and for restructuring costs and market valuation of derivatives.

Q2, 2015

- Softer development compared to previous quarters, which could partly be explained by a cold spring and consequently low activity in outdoor seating.
- Benelux and UK continue to improve, but Germany experienced a weak quarter.
- Cash \& Carry, the dominating distribution channel in Germany, had a weaker trend.
- Sweden still a challenging market, albeit underlying increase in demand.
- Higher share of Premium assortment, but less favorable development in commodities.

## Meal Service

Volume increase and improved profit continues.

## Meal Service

OPERATING MARGIN, \%

1) Operating margin adjusted for fair value allocations and amortization of intangible assets identified in connection with business acquisitions and for restructuring costs and market valuation of derivatives.

- Meal Service continues to benefit from the growth in take-away segment.
- Boxes in various shapes and qualities experience rapid growth, particularly customized closely aligned with customer needs.
- Q2 positively favored by temporarily lower plastic prices which will increase again in Q3.

## Consumer

Last quarter with structural effects from Paper+Design acquisition.

OPERATING MARGIN, \%

1) Operating margin adjusted for fair value allocations and amortization of intangible assets identified in connection with business acquisitions and for restructuring costs and market valuation of derivatives.

- Second quarter the seasonally least important.
- Lower number of campaigns compared to 2014 which benefitted from occasions like FIFA World Cup and a warm spring.
- Strong development in UK.
- Diminished year on year effect from business secured in 2014.

## New Markets

Improvement albeit continuous challenging situation in Russia.

## New Markets

- Stabilization of Russian ruble, implementation of price increase and cost reduction plan in Russia contributed to satisfying development.
- Duni Singapore benefits from sales of Duni assortment.
- Middle East and South America with double digit growth.
